## B. ALIBI ANALYSIS

### KILLER 1: Raghoba (T1 Executor)

**Timeline:** 1988 (15 years ago) **Role:** Executor - drowned twins on Vasundhara's orders

Alibi Element	Claimed	Reality	Verification Source	Exploitable Gap
Evening whereabouts	Working at Wada	Took twins to lake	Haribhau observed him returning wet	YES - No alibi for dusk period
Payment next morning	Normal wages	Unusually large payment from Vasundhara	Kisan found old hidden currency	YES - Payment pattern suspicious
Post-murder behavior	Normal servant duties	Nightmares, calling out twins' names for 15 years	Kisan's observations	YES - Guilt behavior obvious
Ghost sighting panic	Genuine supernatural vision	Guilt-induced hallucination	05_INTERVIEWS/PHASE_1/03_constable_patil_report_t1.md (lines 52-53)	YES - Psychological breakdown

**Alibi Gaps:** - No witnesses to his movements during dusk period when twins were taken - Return to Wada while wet was observed by Haribhau but not questioned - Payment the next morning has no legitimate explanation

**Verification Sources:** - Haribhau (cook) - observed wet clothes (03\_MURDER\_STRUCTURE/01\_timeline\_overview.md line 86) - Kisan (servant) - noticed nightmares, found hidden money (03\_MURDER\_STRUCTURE/01\_timeline\_overview.md line 87) - Kalyani's drawing to Sarla - identified him (05\_INTERVIEWS/PHASE\_2/17\_parubai\_kadam.md lines 62-65)

### KILLER 2: Vasundhara (T1 Mastermind)

**Timeline:** 1988 (15 years ago) **Role:** Mastermind - ordered murders, created curse legend

Alibi Element	Claimed	Reality	Verification Source	Exploitable Gap
Knowledge of deed	Unaware	Feared twins' claim to land	Deed rumor via Sarla	YES - Clear motive
Relationship to twins	Distant	Watched them	Sarla's testimony	

Alibi Element	Claimed	Reality	Verification Source	Exploitable Gap
Instructions to Raghoba	Never gave any	and Kalyani for days Explicit murder order with payment Created and spread it via servants	Raghoba's confession	YES - Surveillance pattern
Curse narrative origin	Believed in it	03_MURDER_STRUCTURE/ 01_timeline_overview.md (lines 70-74)		YES - Direct testimony
				YES - She is source

**Alibi Gaps:** - Physical alibi not needed - she ordered, did not execute - Connection to payment traceable through unusual withdrawal (08\_APPENDIX/04\_evidence\_inventory.md line 34) - Control over curse narrative proves knowledge

**Verification Sources:** - Raghoba's confession (05\_INTERVIEWS/PHASE\_4/47\_dhondiba\_confronted.md lines 61-90) - Sarla's knowledge of surveillance (05\_INTERVIEWS/PHASE\_2/17\_parubai\_kadam.md line 66) - Talathi records show unusual financial activity

### KILLER 3: Madhav Gokhale (T2 and T3 Killer)

**Timeline:** 1995 (T2) and September 2002 (T3) **Role:** Direct killer of four children

Alibi Element	Claimed	Reality	Verification Source	Exploitable Gap
Night of T3 (Sept 14)	At kiln, night shift with Prakash	At lake disposing waste, killed Gauri	Sunita's overheard conversation	YES - Accomplice is co-conspirator
Worker alibis	“Ten, fifteen workers will tell you same”	Workers depend on him for jobs - unreliable	05_INTERVIEWS/PHASE_2/19_bhau_patil.md (lines 70-71)	YES - Economic coercion
Lake visits	“No reason to go there”	Regular night trips for dumping, “once, twice a month”	Sunita's direct observation	YES - Pattern of access

**Alibi Gaps:** - Alibi involves Prakash, who was his accomplice - Workers are economically dependent, unreliable witnesses - Multiple independent witnesses (Sunita, Dinesh) contradict his claims - “Those children saw us” overheard directly

**Verification Sources:** - Sunita Dhore's testimony (05\_INTERVIEWS/PHASE\_3/39\_saku\_waghmare.md lines 66-79) - Dinesh Pote's night sightings (03\_MURDER\_STRUCTURE/01\_timeline\_overview.md lines 203-205) - Aarav's description matches adult male, kiln smell (05\_INTERVIEWS/PHASE\_2/16\_balu\_mane.md lines 46-72) - Physical evidence at lake (tire tracks, waste residue)

## ACCOMPLICE: Prakash Kore (T3 Accomplice)

**Timeline:** September 2002 (T3 only) **Role:** Accomplice - helped Madhav, drove truck

## Evidence Chain Integrity

### Chain A: T2-T3 Murders (Madhav)

Phase 2: Aarav's "two figures" + kiln smell  
|  
Phase 2: Dinesh sees night activity (thinks ghosts)  
|  
Phase 3: Sunita overhears "those children saw us"  
|  
Phase 3: Physical evidence (tracks, waste)  
|  
Phase 4: Prakash confession → Madhav confession

**INTEGRITY CHECK:** SOUND - Each phase builds logically

### Chain B: T1 Murders (Vasundhara/Raghoba)

### No Impossible Sequences Detected

All character movements are physically possible given: - Village distances (30-60 minutes walking between areas per 01\_WORLD\_BUILDING/01\_setting.md line 153) - Truck access for kiln workers - Children's ability to walk to lake

## F. WARNINGS AND RECOMMENDATIONS

### WARNING LEVEL ISSUES

ID	Issue	Severity	Recommendation
W-001	Gopal's death timing vague	LOW	Consider specifying "3 months after" vs "few months after"
W-002	Exact times for T1 murder not specified	LOW	Acceptable for 15-year-old incident - memories fade
W-003	Raghav Nimkar's death cause (snakebite)	INFO	Red herring correctly marked - no fix needed

ID	Issue	Severity	Recommendation
	not investigated		

## STRENGTHS OF TIMELINE STRUCTURE

1. **Two separate conspiracies** are cleanly separated in time and evidence chains
2. **Verification requires multiple sources** - no single testimony proves anything
3. **Alibi weaknesses** are realistic and exploitable
4. **Evidence discovery order** is logical and builds tension
5. **Ghost ambiguity** maintained through Phase 3 as designed

## AUDIT CONCLUSION

The timeline structure is **internally consistent** with no impossible sequences detected. The three murder timelines (T1: 1988, T2: 1995, T3: 2002) maintain proper chronological integrity. Character alibis have realistic gaps that can be exploited through investigation. Evidence revelation follows a logical progression that supports the game's four-phase structure.

**Final Score: 88/100** - Timeline Consistency: 95/100 - Alibi Plausibility: 90/100 - Evidence Chain Logic: 90/100 - Contradiction Handling: 85/100 (intentional lies vs errors clearly distinguished) - Movement Feasibility: 100/100
